

We're getting new lights!

What's happening?

We are installing a state of the art LED lighting system that will make our club the best lit club around.

How much brighter is brighter?
More than twice as bright – you will be amazed!

Are these good for the environment?

No, they are GREAT for the environment!
These lights will use 36 carloads of coal less for each tennis court every year!!

How long will it take?

About a week.

While we are sorry for the inconvenience, we know you'll be happy we made this investment to make playing tennis here even better.
